

Ms. Nacole Caputo is a Certified Industrial Hygienist and seasoned manager with over 15 years of experience. She holds a Master of Business Administration and B.S. degree in Biology, making her an ideal project manager for environmental and industrial hygiene projects. Ms. Caputo maintains many indoor air quality, lead and asbestos certificates, including Florida licenses for Asbestos Consultant and Mold Assessor. Her portfolio includes private, commercial, industrial, and government agencies from most industries in the marketplace. She managed and assessed hundreds of asbestos and mold/indoor air quality projects throughout her career including a 40+ unit apartment complex, multi-story hotels, historic properties, commercial buildings, churches, schools (K-12 and universities), single and multi-family residential and hospital/healthcare facilities. She works with attorneys and insurance carriers on mold, asbestos and chemical loss projects including Section 8a housing, high-end residential and commercial properties. She specializes in competent use of various equipment including viable and non-viable air sampling, velocimeters, comfort parameters, various types of moisture meters and thermal imaging cameras, borescopes, and particle counters.

Notable industrial hygiene projects include: Noise assessments for industrial clients including railroad, entertainment facilities, and production facilities. Ventilation assessments for healthcare and correctional facilities. Exposure assessments for various particulates and chemicals for industrial and non-industrial clients including entertainment facilities, correctional facilities, utilities/power generation, welding operations, production facilities, and petroleum terminals.

Her focus on safety and quality makes her an ideal project manager for surveys and remediations which require extensive knowledge of federal, state, and local regulations, as well as specific client needs. Additional vocations include proposal writing, marketing, project administration, coordination/scheduling, budget control, and supervising multiple contractor activities.

She served on the Board of Directors for the American Industrial Hygiene Association Florida Local Section as Secretary for three years and is currently the immediate Past President.
